An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In accordance with MPEP 608.02(w) the following drawing correction is required: In Figure 20, "ROCK POSITION THREAD" must be changed to --ROCK POSITION TO THREAD-- to correct a grammatical error. A marked-up copy of Figure 20 is attached.

The patents to Mamiya and Shimizu et al are cited to disclose detachable sewing cartridges for use in electronic sewing machines.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of the claim 1 and its dependent claims is the inclusion in claim 1 of a needle bar control unit controlling a needle bar position control unit controlling a needle bar rocking mechanism so that the needle bar is rocked so as to occupy a predetermined zigzag position, when a detector for detecting a thread cassette has detected the thread cassette ejected from a cassette mount.

The primary reason for the allowance of claim 10 is the inclusion of a needle bar position control program accomplishing a function of controlling a needle bar rocking mechanism so that a needle is rocked so as to occupy a predetermined zigzag position, when a detector has detected a thread cassette ejected from a cassette mount.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
